**Effective Date:** Immediately

**Part #:** LP450P10Q

LP200P36Q

LP650P10Q

**Subject:** Lube Pumps

**Issuing Authority:** Sales

## Lube Pump Product Alignment

### **Tuthill Transfer Systems is realigning our Lube Pump product line for 2010!**

The following models will continue to be available:

**LP50P18Q12:** 12 VDC, ideal for mobile applications to transfer hydraulic fluids and motor oils.

**LP50P18Q115:** 115 VAC, 50 psi, kit includes wall mount bracket and quick detach coupler. Ideal for drums, totes, or tanks.

**LP50P36Q115:** Higher flow rate version of the LP50P18Q115 pump.

**LP200P18Q:** 115VAC, 200 psi pump with wall mount bracket and quick detach coupler. Ideal for longer distance oil transfer.

### **Tuthill will discontinue the following Lube Pump models:**

**LP450P10Q:** A 115VAC, 450 psi pump. It features a pressure switch that allows it to turn on and off automatically with demand. Only 3 units left!

**LP200P36Q:** A 230VAC, 200 psi lube pump. Only 11 units left!

**LP650P10Q:** A 230VAC, 650 psi on-demand lube pump with pressure switch for operation on demand. Only 21 units left!

Inventory is disappearing on these discontinued pumps, so don't hesitate! Call today to place your order, because when they are gone, they are **gone!**
